Speculation Once More Turned on the Bond Market.

New York, Feb. 1 .- Speculation at the stock exchange again turned on the bond issue. The street is firmly convinced that a deal has been perfected between the treasury officials and the foreign banks whereby the depleted gold reserve is to be replenished and accordingly has arrayed itself on the bull side of the account. The straggling shorts followed the bull operators and their purchases stimulated the upward movement. London, which seems pretty confident that the treasury department will make a bond issue, was a liberal buyer of its favorites and took large amounts of St. Paul and Louisville and Nashville. Local firms were more encouraged than for some time, and reported a little inquiry for outside

A great feature of the day was a break in the actual rates of sterling exchange of about 1 per cent., which led to a general cancellation of the orders for ship-ments of gold by to-morrow's European steamers. In addition to this some of he bankers who cancelled their orders eturned \$1,800,000 to the sub-treasury, and at a late hour one firm was looking for transportation to return \$1,000,000 additional, which it intended to export.
As the withdrawals from the sub-treasiry to-day were only \$1,200,000 it will be seen that the government actually gained gold by the day's operations. The big gold shippers were offering heavy mounts of money on call at the close

The announcement from Washington hat the bureau of engraving and printng had been instructed to print fivundred millions of bonds also strength ened the market, it being inferred that the administration would go to any ength to preserve the currency on ound basis. The gain in prices ranged from 1/2 to 2 per cent, and was most marked in American Sugar, Chicago Gas, Louisville and Nashville, Lead, the grangers, Southern Railway, Western Union, Cordage, Lake Shore and the coalers. General Eclectric was weak at one time and fell to 28%, the lowest discovered that a big short interest had covered a rally to 30 ensued.

The market closed strong and ¼ to 2 per cent. higher than yesterday. Illinois Central jumped 216 to 8836, Tobacco 2% to 95% and Lake Erie and Western preferred 1% to 70%. Metropolitan Traction dropped to 77. The bond market was stronger. Sales
